## **2015-2019 Adopted Capital Improvement Program**

### **Art in Public Places**

---

In developing the 2015-2019 Adopted Capital Improvement Program (CIP), staff reviewed each capital program for public art funding based on revisions to the Public Art Master Plan approved by the City Council on March 13, 2007 and in accordance with Chapter 22.08 (Art in Public Places) of the San José Municipal Code. One percent of all construction project funding is required to be allocated to public art, excluding funding for seismic and ADA retrofits, rehabilitation, maintenance and operations, non-construction projects (such as studies), or affordable housing. Attached is a breakdown of public art allocations in the 2015-2019 Adopted Capital Improvement Program (Attachment A) and a sampling of projects that are currently being developed (Attachment B).

As shown in Attachment A, a total of \$7.2 million is programmed for public art projects in the 2015-2019 Adopted CIP. This figure does not include the \$1.6 million in public art expenditures estimated for 2013-2014. It also excludes outside funding from grants and consulting projects being managed by San José's Public Art Program staff. Due to the outreach and development process, the timing and completion of the projects may vary from when the funding for a project is allocated. Funds will be recommended to be carried over (rebudgeted) from 2013-2014 to 2014-2015 as necessary as part of the 2013-2014 Annual Report.

Aside from 2013-2014 funds rebudgeted to 2014-2015, there is no new public art funding in this CIP in the Airport Capital Program. The Airport funding that would have been required to be programmed under the Public Art Ordinance was approved to be deferred until such time as activity levels reach 12.2 million passengers per year. This activity level is projected to occur outside of this CIP period.

The sample project list that follows (Attachment B) includes major highlights of some of the public art projects funded through the Public Art allocations in this CIP. Given the scope and schedule of specific public art projects still under development, and determined as funding allows, not all public art projects are reflected in this document. Further detail and discussion of all specific public art projects can be found in the Annual Status Report on the City-wide Capital Improvement Program. The last report was accepted by the City Council on October 29, 2013.

In accordance with the San José Municipal Code, the attached worksheets were submitted to the Arts Commission for review in May 2014.

## Performance Measures

A set of consistent and comprehensive performance measurements along with targets and goals have been established for the entire capital program and adopted for each individual CSA. Measures focus on schedule (cycle time) and project delivery cost. Please see the Budget Guide section narrative for additional information on capital performance measures. While its investment spans across each CSA, performance measures for Public Art are presented below for ease of reference.

### *Outcome: Quality CIP Projects Delivered On-Budget*

5 Year Strategic Goals			2012-2013 Actual*	2013-2014 Target	2013-2014 Estimate	2014-2015 Target	5-Year Goal
Community and Economic Development CSA delivers quality Capital Improvement Program (CIP) projects on-time and on-budget	1.	% of CIP projects that are completed within the approved baseline budget**	50% (2/4)	85%	83% (10/12)	85%	90%

*Changes to Performance Measures from 2013-2014 Adopted Budget: No*

- \* The number of projects may vary from the 2012-2013 Adopted Budget Estimate as a result of the date of the estimated beneficial use of the project being revised with the project expected to be delivered in the following fiscal year as well as the inclusion of projects in the 2012-2013 Actual not originally included in the estimate due to incomplete information at that time.
- \*\* Projects are considered "completed" when final cost accounting has occurred and the project has been accepted; projects are considered "on budget" when the total expenditures do not exceed 101% of the baseline budget.

In 2013-2014, an estimated 10 of 12 (83%) projects are expected to be completed within their baseline budgets, falling just short of the performance target. The increased costs above baseline are primarily attributable to delays in the delivery of the corresponding capital projects, which require additional staff time for delivery, rebid of materials and services, and storage costs. Notable Public Art projects estimated to be delivered in 2013-2014 include the artwork at the San José McEnery Convention Center; Alum Rock Cultural History Corridor; Educational, Calabazas, and Bascom Branch Libraries; Vista Park Community Center Gates; and Fire Station No. 24.
